Erratum

In the article Spontaneous Superficial Parenchymal and Leptomeningeal Hemorrhage in Term Neonates, Huang HA and Robertson RL, AJNR 25:469–475, March 2004, the figure orientation for figures 5A and 5B was incorrectly printed. The correct figure orientation is shown below:

Fig 5. Unenhanced CT scans of a neonate (patient 6) with focal seizures at 18 hr of life. A, CT scan shows a right parietal parenchymal hematoma (H). B, CT scan obtained at a slightly higher anatomic section reveals additional hemorrhage (H) with extension into the sulci, indicating leptomeningeal bleeding (arrows). A large overlying cephalohematoma (arrowheads) is also present.
