Due to an oversight, an error appears in the article **Correlation of Local Outcome after Partial Laryngectomy with Cartilage Abnormalities on CT** *AJNR* 26:674–678, March 2005. The last line of the first column in the methods sections, which reads “The two reviewers were not blinded to the surgical results and clinical outcomes at the time of image interpretation” should read “The two reviewers were blinded to the surgical results and clinical outcomes at the time of image interpretation.”

The affiliations for the authors are incorrectly listed in the article **Diffusion Abnormality of Deep Gray Matter in External Capsular Hemorrhage**, *AJNR* 26:229–235, February 2005. The authors and their respective affiliations should be listed as:

Won-Jin Moon, Dong Gyu Na, Sam Soo Kim, Jae Wook Ryoo, and Eun Chul Chung
