MANUSCRIPT FORMAT

Abstract
☐ Structured abstract, with four subheadings: Background and Purpose, Materials and Methods, Results, and Conclusions
☐ Abstract is 250 words or less

Text
☐ Order of sections in the main document: Title, Abstract, Main Text, References, Tables, Figure Legends
☐ The manuscript word count (Introduction through Tables + image word count) complies with the stated regular word limit of 4500, or 5500 if the word count fee is accepted. [SEE: Image Word Count Guide]
☐ References are cited in the order in which they appear in the text, using numbered format
☐ Manuscript is properly blinded
  ☐ No author names appear within the text (do not blind references)
  ☐ No author affiliations/institutions appear in the text
  ☐ If you refer to a previous reference of your own, you do not use language such as “our previous paper” or “as we have already reported”. Preferred: “As previously reported in Ross et al”
☐ A full title page is uploaded as a separate document

Tables
☐ All tables have a unique and descriptive title
☐ All table abbreviations are defined
**Figures**
- Figures are uploaded in TIF, JPG, or EPS format. (Direct export from statistical software to EPS/PDF preferred for plots.)
- Legends have been included in the Manuscript Central caption field provided for image uploads
